25 August 2008

Rebuttal to comments from Placer Campaign For Community Wellness - UNDATED
but were: Placer response to Nami-PC regarding Year 2 progress Report MHSA 2007

BULL and double talk.

First of all IMPORTANT: On Item #10 your response (#3 our letter) said: "The
MHSA cost report is attached to this response and will be available to anyone who
request see it." was **NEVER ATTACHED and/or**
INCLUDED IN YOUR LETTER TO NAMI-PC.

**This financial breakdown request has been asked for months and
months thru the Placer Mental Health Drug and Alcohol Board and
the Campaign for Community Wellness as well.**

**TRY IT AGAIN. Maybe you will find that your spending it
incorrectly, if you ever complete and/or furnish us with these
figures.**

**#1 rebuttal: SHAME on you for not figuring out that
papers copies are always more important that the internet. As
internet is very limited to clients, older people and people who
don't want to use it at home. YOU FAILED THE PUBLIC
COMMENT, AS FAR AS WE ARE CONCERNED. Less
then 1 of 10 people that we knew even knew it was available for
review.**

**#5 rebuttal: We have asked for that for years. Thank god
others (outsiders) felt it was important enough to force it
through.**

#7 rebuttal: ACCESS does assessments. Sutter Hospital does crisis NOT assessments. Sutter staff would usually tell people to call ACCESS.

#8 Still waiting for info (requested long ago) from MHD&A Board about this issue. This is NO what clients tell us is happening.

#10 Financial Breakdown. No attachment was there. DO IT AGAIN the way we are requesting it. Show the public where the money is being spent.

#11 Services are still an extreme problem in this county; extra money is not helping, as we see it at this time.
